

Classroom Renovation for St. Laurent and La Porte

The schools of La Porte and St. Laurent are both supported by *Hope for Haiti* and have been working with all the resources that they have to provide the best environment and education that the community can give. Fr. Max has been a dedicated and hard working priest for the parish of St. Laurent. In 2007, he had requested funding to finish both of his schools with plaster and paint. Both schools were only exposed block and stones, and the community wanted schools of which they could be proud. *Hope for Haiti* was thankful to raise the funds needed to finish both schools at the March 2008 Gala. We have had a wonderful time with

this project and have involved many volunteer groups who have enjoyed working side by side the school children of La Porte and St. Laurent. The community will have 2 schools that they can have great pride in sending their children to and a wonderful new environment in which they can learn.
